FOR IMMEDIATE RELEASE

SAGATOV ASSOCIATES INSTALLS ARLINGTON'S FIRST WHOLE HOUSE RESIDENTIAL GREEN ROOF.

Arlington, VA 7/01/08—Sagatov Associates has recently completed construction on Arlington County's first whole house 'Green' roof. Located at 1922 N. Quantico Street, this multi-layered roof assembly significantly reduces rainwater run-off by trapping water in both soil and plant layers. These two layers also act as an insulating barrier, reducing heating costs in winter and cooling costs in summer. A colorful variety of over 3,200 hardy sedum plants are both attractive and absorb carbon dioxide while producing oxygen.

Incorporated into a house built to Energy Star and EPA Indoor Air Package specifications, the overall result is a much more energy efficient dwelling with a reduced impact on the surrounding environment. As environmentally friendly building practices move further into the mainstream, Sagatov Associates is proud to be on the cutting edge of Northern Virginia's 'Green' building movement.

###
